The Newington Police Scanner feed is available 24 / 7 online at <http://www.MyNewington.COM>

To protect our brave officers the scanner feed uses a variable delay. Our goal is to keep you informed of what is happening in your neighborhood, NOT help the bad guys or put our officers in harms way.

It should also be noted that for sensitive situations, the police know their broadcasts are being sent over public airwaves and can be heard by civilians with scanners and via the Internet. Because of this they can send sensitive data to officers in their in car computers called MDT's or they can call the officer directly on their cell phones.

Keep up to what's happening in your town online at <http://www.MyNewington.COM>
